Micronesia and Romania establish diplomatic relations

February 5, 2019 (New York) – The Federated States of Micronesia and Romania established diplomatic relations on Tuesday, February 5, 2019 with the signing of a Joint Communiqué that took place at the Permanent Mission of the Federated States of Micronesia’s conference room. The Communiqué was signed by the Her Excellency Jane J. Chigiya, Ambassador and Permanent Representative of the Federated States of Micronesia to the United Nations and her counterpart, His Excellency Ion Jinga, Ambassador and Permanent Representative of Romania to the United Nations.

Romania is a country in southeastern Europe with Bucharest as its national capital. In 1944, Soviet troops occupied Romania and it became a satellite of the Union of Soviet Socialist Republic (USSR) in 1948 until 1989.

The establishment of diplomatic relations with Romania is part of the Government of the Federated States of Micronesia's wider thrust to pursue new partnerships to advance the nation's economic development.
